

**Recruit | Apply | Review | Manage | Report | Connect**

# One Login, No Paper

**Reduce your costs. Take advantage of social networks and Web 2.0.**

Powerful, paperless, and web-based, LuxApply supports the recruitment, application, review, and selection processes for internship programs.

With LuxApply, applicants can apply to multiple programs simultaneously using password-protected accounts. Reviewers can log in, review, and score applications from anywhere. Program managers can manage internship programs, track and export data, conduct program assessments, collect online evaluations and surveys, and maintain contact with alumni following the program.

Our security processes and tools are consistent with industry best practices as well as FISMA and NIST guidelines for the storage of personal information. LuxApply is Section 508 Compliant.

And, you can still print, if you want to...

## Continuing Success:

In 2009, LuxApply has already supported 933 applications, 97 reviewers, and 52 interns for five different NASA programs.

## Mentors

Announce your opportunity to applicants from multiple programs. Set your questions. Find the best match using built-in skill and discipline matching algorithms.

## Sponsors

Log in to one place for multiple programs. Filter and sort to find candidates matching your criteria. Easily indicate who you want to sponsor. Send announcements of programs and communicate with local students. Monitor funds disbursement.

## Managers

Manage recruitment, application, and selection for multiple programs simultaneously online. Track participants through the program and stay in touch using texts, "tweets", and mailing lists. Stay connected with your alumni. Our system integrates seamlessly with your web site.

## Applicants

Apply to multiple programs through a single interface. Focus on program questions, not on re-entering standard information. Export your application and maintain your profile for future use.

## Social Networking

LuxApply uses social networking tools like Facebook and LinkedIn to recruit and maintain relationships with applicants and internship program alumni. This creates a pool of available applicants for new programs and allows agencies to respond to various OMB initiatives.

## It's Easy to do business with LUX

The Lux Consulting Group, Inc. (Lux) offers expertise in information technology services, program management, and logistical support. For over 10 years, Lux has helped our clients cut costs through web innovations. We also help our clients monitor and report progress as required by various OMB initiatives. We are a certified participant in the SBA's HUBZone and 8(a) programs. We are on the GSA MOBIS Schedule.

Lux has provided management and logistical support for numerous internship programs at NASA. Lux also has contracts with DHS, HHS, USDA, DOL, and others.
